Profile

Data and BI analyst with over eight years' experience turning data from SAP, Ariba, Excel and SQL databases into dashboards, KPI reporting and decisions, across pharmaceuticals, facilities management, property and banking. Finance-trained (MBA Finance, BSc Banking and Finance) with a banking background in credit analysis, management information and treasury operations, which I bring to spend, cost and performance analysis. At Eisai Europe I supported a €1.5m cost savings target through supplier and spend analysis and cut reporting preparation time by around 50% through automation. I build reporting that stakeholders use, and I train users on the systems behind it.

Technical Skills

- **BI & reporting:** Power BI (DAX, Power Query), Tableau, Advanced Excel (Power Pivot, Power Query), KPI and dashboard design
- **Data:** SQL (PostgreSQL), Python (Pandas, NumPy, Matplotlib), data cleaning and transformation
- **Systems:** SAP, SAP Ariba (super user and trainer)
- **Automation:** AI-assisted automation (Claude, API integrations, workflow automation)
- **Analysis:** spend and cost analysis, financial and management reporting, supplier and customer analysis, forecasting and trend analysis, process improvement

Work History

Freelance Data & Analytics Consultant – DataWize Analytics
London · 2026 – Present

- Built **Spend Ledger**, a natural-language query tool over UK government spend data: reconciled 157,000+ transactions (£67bn, three departments) from inconsistent departmental CSVs into one clean schema, with read-only, validated SQL behind every answer (Python, DuckDB, Streamlit, Claude).
- Built an end-to-end automation pipeline that drafts eBay listings from product photos using Claude vision and logs them to Google Sheets (Node.js backend, mobile web app).

Data Analyst (Contract) – Eisai Europe Limited
Hatfield (hybrid) · November 2023 – April 2026

- Worked in the Procurement (Business Effectiveness) team, supporting EMEA operations through data analysis, reporting and performance tracking; partnered with finance and procurement stakeholders to turn business questions into analytical requirements.
- Produced weekly, monthly and quarterly spend and supplier reports from SAP, Ariba and

P-card data, giving category managers visibility of supplier onboarding, spend patterns and compliance issues.
- Automated the weekly supplier reporting process, reducing preparation time by around 50%; this enabled faster supplier follow-ups and contributed to cutting average supplier onboarding time from over three months to about six weeks.
- Analysed two years of purchase order values by supplier and category, leading to the identification and cleansing of over 10,000 duplicate supplier accounts and a preferred supplier list, supporting a €1.5m cost savings target.
- Built and maintained Excel and Power BI dashboards tracking supplier onboarding, purchase orders, contract compliance and category spend; owned the monthly cost savings and value tracking dashboard (realised and pipeline savings).
- Championed a fix for a multi-day spend report: identified and joined the relevant SAP tables and built a Power BI report on the extract showing spend over time, by cost centre, material type and category manager.
- Joined without SAP experience and became a super user, delivering SAP and SAP Ariba training across EMEA and improving PR and PO accuracy and process compliance.

Data Analyst (Contract) – Quado Limited
United Kingdom (hybrid) · September 2022 – September 2023
- Provided commercial and operational reporting for a property development and facilities management business.
- Built Excel and Power BI dashboards tracking sales performance, customer behaviour, supplier costs and margins.
- Automated daily and weekly reporting with Power Query and Power Pivot, saving around five hours of manual work per week.
- Analysed sales and customer data to identify trends and opportunities, contributing to a 10% increase in revenue.
- Carried out cost and supplier analysis to support vendor negotiations and better pricing and contract terms.

Business Intelligence Manager – Krystalklean Masters Limited
January 2017 – July 2022
- Helped grow a cleaning services provider into a broader facilities management business through data-driven decisions.
- Forecast demand from historical sales and usage data to support stock planning, reducing excess inventory while maintaining service levels.
- Designed KPIs and operational dashboards that improved productivity and client satisfaction.
- Analysed procurement and supplier data, achieving a 10% reduction in supply chain costs.
- Automated reporting, reducing administrative workload by 20% and improving data accuracy.
- Carried out market and competitor analysis that supported the launch of new services, including fumigation and PPE supply.

Fidelity Bank Ghana
March 2010 – August 2016
Credit Analyst · December 2014 – August 2016
- Analysed corporate loan applications and prepared credit reports in line with the bank's credit policy and regulatory requirements, exceeding targets by 15%.
- Monitored corporate banking portfolios and produced management information on

income, risk and product performance.
- Worked with operations and IT teams to improve credit and product delivery processes.

Relationship Officer, Corporate Banking · July 2013 – December 2014
- Managed a portfolio of business banking customers; grew the deposit portfolio by 20% and the loan portfolio by 25% with the team.

Personal Assistant to Director, Corporate Banking · January 2013 – June 2013
- Analysed corporate business desks' performance against income goals.

Reconciliation Supervisor, Treasury Operations · March 2010 – December 2012
- Ran day-to-day treasury operations, including settlement of money market and foreign currency swap transactions and preparation of regulatory reports for the Bank of Ghana.
- Oversaw trade reconciliation and money transfer ledgers (including Western Union and MoneyGram); saved around $500K by detecting fraudulent transactions.

Education

- **Certificate in Data Analysis** (Tableau, R, SQL, Python, Advanced Excel) – London School of Economics (LSE), 2024
- **MBA Finance** – University of Ghana Business School, 2016
- **BSc Business Administration (Banking and Finance)** – University of Ghana Business School, 2008
